READY.

AN AUSTRALIAN MADE AND OWNED SOLUTION DESIGNED FOR CONSTRUCTION AND TEMPORARY SITES REQUIRING A HIGHER LEVEL OF SECURITY. ENSURE YOUR SITE GATE IS CLOSED, SECURE AND OPERATING OPTIMALLY, FROM ANYWHERE IN THE WORLD. THE RAPID DEPLOYMENT OF THE **READY GATE** (OPERATING AS SOON AS 1HR FROM DELIVERY) IS THE PEAK OF ONSITE CONVENIENCE AND SECURITY

What Is READY?

- An automatic cantilevered security gate that is deployable to a construction or temporary site that requires a normally closed, secure entry/exit.
- Crane-able, portable, moveable. The **Ready Gate** can be moved around your site as your site entries, conditions or alternate access requirements change along with your program.
- **Ready Gate** gives big openings. Up to 8m in its standard format, and **up to 10m** wide in the **Ready Gate XL** Version. The **Ready Gate** allows the ability for semi trailers and retractable trailers to deliver to your site with the least impact on swept path and simplifies coordination works for deliveries.
- **Ready Gate** is fully equipped with PALGATE functionality and a 4G wireless access controller. It is able to be administered remotely, giving an incredible range of restriction and permission to all users.
- **Ready Gate** is a cantilever gate design, meaning it floats above the ground, ensuring the least amount of prep work - and **NO CONCRETE FOOTINGS OR TRACKS** to build, demolish or maintain.

Our Services

Certified GATE SAFE Products

Internationally certified to ensure complete satisfaction in safe operation. Australia's safest automatic gates.

OFF GRID Power options.

Off grid power options ensure that **Ready Gate** is as portable as can be. Up to 40hrs of continuous operation before re-charging is required. 5 year warranty on batteries.

Installation Service and Maintenance

Ideal can assist with installation and maintenance of your **Ready Gate**. Safety devices, moving parts and power solutions require periodical maintenance. Protect your investment by enrolling in our maintenance planner.
